

CATAPULT CRUZER

CATAPULTCRUZERS.COM

WHAT IS THE CATAPULT CRUZER?

The Catapult Cruiser is a buildable, flyable, model plane that comes in a kit and is launched with a bungee cord. The Catapult Cruiser is used in youth groups in a Fly-off competition for air time or distance.

WHAT MAKES THE CRUZER SO AWESOME?

On top of the fact that kids LOVE the Cruiser, it gives them exercise and it's educational! The shapeable and customizable main wing and adjustable canard make it a great tool for STEM projects. Flying the Cruiser teaches concepts like launch mechanics, surface area, and experimental design.

WHAT IS A FLYOFF?

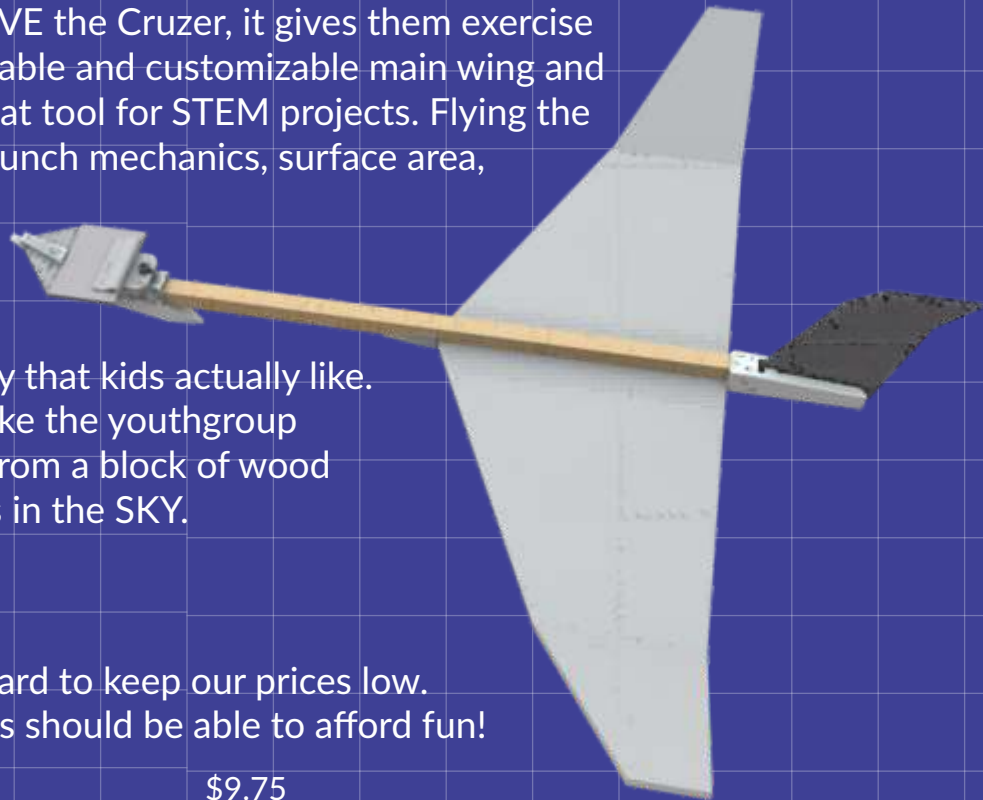

The Flyoff is an outdoor activity that kids actually like. If you want a comparison, It's like the youthgroup game where you whittle a car from a block of wood and roll it down a track. But it's in the SKY.

HOW MUCH DOES IT COST?

At Catapult Cruzers we work hard to keep our prices low. We believe children of ALL ages should be able to afford fun!

Kit with launch cord	\$9.75
1-29 Kits without Launch Cord	\$8.50
31-59 Kits without Launch Cord	\$8.25
60 - 99 Kits without Launch Cord	\$8.00
100+ Kits without Launch Cord	\$7.50
Extra Launch cords on bulk orders	\$1.25

A free launch cord comes with every 10 kits
